Thank you Assaf for the guidance and support during the investment. The attention and availability of the staff is **several levels above all the other investment companies** I have worked with.

Let's go to the next investment!!!

Hi Assaf, I just wanted to say thank you, that you knew how to accommodate and give us the time and space to understand and be informed about the process, we were very happy to meet you and it gave a lot of **peace of mind throughout the investment process.** Without a doubt we will return to invest and meet again.

Assaf - I will summarize my satisfaction in a short sentence.

**"4 investments that have been successfully done with you** - and a new, fifth one, that is rolling as we speak." I think that says it all 

Thank you for your professionalism and support on every step of the way.

**I got the money and the profit back**, then I invested in two more projects, **and again, I got the money and the profit back**, and now I'm invested in two more that end soon :)

A pleasure to work with, **very quick to respond** if I have a question or need anything.

Investing with you is a passive investment, and I didn't have any hassle or headache on my side, which means that **my money grows while I'm free to do other things...**

Thank you very much,

Daniel

**Communication and transparency** throughout, your projects and the local partners you work with are truly at the **highest level** I've ever seen. It's not for nothing that even during a difficult time in the market you brought such **successful results**.

It was a pleasure to invest with Assaf!

Besides the open communication and full transparency, **Assaf gave us a lot of confidence and provided an amazing service**.

We had a lot of questions at the beginning and Assaf answered them all and made us feel safe investing with him. I will definitely return to invest with him again and of course **I will recommend him to my family and friends** who are also interested in investing.

Thanks again for everything,

Avital and Barak

I have been in the business world for 18 years, in the positions of manager/VP/consultant in Israel and around the world. For me, everything begins and ends with trust!

I met Assaf a year and a half ago on a Zoom meeting, and I decided to invest a substantial amount of money with him. Today, exactly 18 months later, **I got my money back with a nice chunk of interest, just like what was discussed and signed in the contract.**

We are in an era of crisis of trust In governments and in monopolies.

With Assaf, I found right from day one **the trust I was looking for** (and I met dozens of entrepreneurs before). Especially these days it is exciting to see and realize that there may be a brighter future... and that it is still possible to do business **professionally and transparently while maintaining high ethics.**

**Highly recommend** - invest with Assaf.

Assaf,

Thank you very much for the fast, courteous and **professional** service (again). You give us a lot of **confidence**, give us all the relevant information (the big picture as well as the small details) and make it **easy** to make decisions, and despite the geographical distance, it feels like we are really part of the project.

Best regards

Getting to know Assaf was very pleasant.

When I decided to invest, the process was simple and short. Throughout the entire investment time, Assaf **was available for any questions.**

In some cases, **the investment ended long before the deadline.**

The investment was returned by the interest rate we initially agreed on, and all the deposits returned without any problem.

I found a pleasant person that you can **trust**, a person who stands behind his words and is not trying to sell anything but being himself. He also **cares about you and always wants to help and guide.**

I would love to invest again.

"Starting my third investment with Assaf, after my mother has also already completed two investments with him, and we are both **very satisfied** 😊 Beyond the **amazing investment return**, Assaf is always available for any question, **explains things clearly**, and gives recommendations from his experience. In addition, Assaf gives so much content and value for other aspects of life and business, and he is a very interesting person 🤝🌺

I'm moving on to my next investment with him...."

As an investor I **slept well at night**.

Your updates and keeping in touch, makes the investment an investment with **peace of mind**.

Even if there were delays in the project, you always reflected that and always said that we are working with a reliable team.

And indeed it turned out that it was. And the fact that **I continue to the next deal with a big smile, says it all**. Cheers for more great deals!

Dear Assaf,

As you know, I invested in a variety of investments before I started investing with you.

I invested in single family homes through a real estate company, also bought single families myself, also invested in a multi-family project through a well-known company, and more.

But in the end the **best investment was no doubt through you**.

Zero fuss on my side.

You are always **available for questions** if any.

And one of the most important things - there are no surprises at all like I had in other investments.

So thank you and of course also to Natalie and your **special team**.

We are continuing full power for more investments with you 💪💪
